

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

PREFACE

THE 1915 EDITION of THE AMERICAN LAW LIST contains in addition to the compilations for the United States, Canada, England, Scotland and Ireland, a selected list of representative solicitors practising in the principal cities and towns of Africa, Central and South America, Asia, Australasia and Europe. The foreign correspondents whose names have been included in this edition have been recommended and indorsed by American, Canadian or English concerns which have advised us as the result of personal knowledge and experience. Eminent members of the bar, and the leading foreign banking institutions, and other sources have been consulted, as well, in the selection of counsel in these various foreign countries.

In consequence of the European War we have eliminated the compilation for Belgium, and we present the names of correspondents in France and Germany with the degree of uncertainty that is unavoidable under the present conditions. We believe that the solicitors whose names are given for Great Britain are in active practice at the time of publication of this volume; at least, we have received no information to the contrary.

The present edition of THE AMERICAN LAW LIST has been carefully revised and corrected, and many additional American towns have been

included. The correspondents of **THE AMERICAN LAW LIST** are representative lawyers of ability and experience in general, corporation and international practice. The compilation of **THE AMERICAN LAW LIST**, as a whole, is the result of conscientious and painstaking investigation, supplemented with the judgment and advice of those who are competent to so aid and direct us.

We acknowledge, once again, our indebtedness to members of the bar, officers of banking institutions, and the legal departments of insurance, railway and industrial corporations, and to those law firms practising in the principal cities of the United States, Canada, Great Britain, Europe, Asia and Africa, whose names are presented in this publication, all of whom have freely and graciously given their aid and co-operation in the compilation of **THE AMERICAN LAW LIST**.

THE
Scottish Law List
AND
Legal Directory

Contains Official Information regarding the Court of Session and the various Offices and Registers connected therewith: Complete Certificated Lists of Advocates, Solicitors, Commissioners, Notaries Public, and Accountants in Scotland, with full details as to their appointments; Lists of Law Societies; detailed County Court and County Information and Officials; List of Landowners, Public Bodies, and Joint-Stock Companies with their Agents; of Mortgage and other Companies, Banks, &c.; of Law Agents in England and in the Colonies and Foreign parts, &c.; and other Legal information. *The Insurance Directory (Incorporated in the volume) gives detailed information with regard to Scottish Offices and English Offices having Scottish Branches.*

As the *only Law Directory in Scotland* recognised by the Courts, it circulates largely, and is in constant request in the Scottish Law Offices. It is therefore the most *reliable* and most *direct* medium for bringing any professional card or notice under the eyes of Practitioners in Scotland.

The Publishers will be glad to send particulars as to Fees for Insertion, etc.

*The Sixty-seventh Edition will be published in
January, 1914.*

Greater Speed—Greater Accuracy
Greater Efficiency

Are the logical results of installing the

Underwood Typewriter

Exclusive Underwood features make possible the most important labor-saving systems of modern accounting. The ever growing demand puts the annual sales of Underwoods far ahead of those of any other machine—making necessary the largest typewriter factory and the largest typewriter office building in the world.

Such a demand from business men everywhere is unquestionable evidence of the practical mechanical superiority of
